

FRED easy Life

The Automated External Defibrillator that gives everyone the confidence to save lives.

SCHILLER

The Art of Diagnostics

FRED easy Life

The Automated External Defibrillator that gives everyone the confidence to save lives.

Simple, clear and detailed voice and displayed instructions are complemented by pictures on the front panel to give visual reminders to the rescuer.

Guided from the beginning to the end

- Pictures on the front panel remind you of the main resuscitation steps.
- Voice and display instructions guide you in all environmental conditions (noisy, dark).
- A metronome gives you the correct rhythm to perform good chest compressions.

Anybody can save

1 Call emergency services

4 Do not touch the patient
Follow instructions

Anybody can save everybody...

Suitable for all users, available in:

- Fully-automatic mode: attach electrodes to the patient, switch the unit on and let the device analyse and deliver the shock if necessary.
- Semi-automatic mode: attach electrodes to the patient, switch the unit on and follow the instructions, press the shock button if recommended by the device.

Designed for all patients:

Each patient is different. Thanks to automatic impedance measurement, the device adapts the treatment to each pa-

tient in order to reach the same high level of efficacy.

FRED easy Life is adapted to adults and pediatrics: electrodes are automatically recognised and the energy level is adjusted accordingly.

...everywhere

Around the world, public places, schools, companies, airports, stadiums and shopping centres equip themselves with Automated External Defibrillators (AED), to guarantee security and first aid for everyone.

With its new concept of networked AEDs, SCHILLER advises a unique solution for a better reactivity in case of cardiac arrest and a simplified management of the defibrillator pool.

FRED® easy Life Online is an AED which is permanently under remote control (presence, functioning, configuration view and update...).

Have everybody ... everywhere.

2 Switch unit on

3 Place electrodes on chest

5 Deliver shock if necessary

6 Perform chest compressions

Available versions:

FRED easy Life fully automatic

FRED easy Life semi automatic

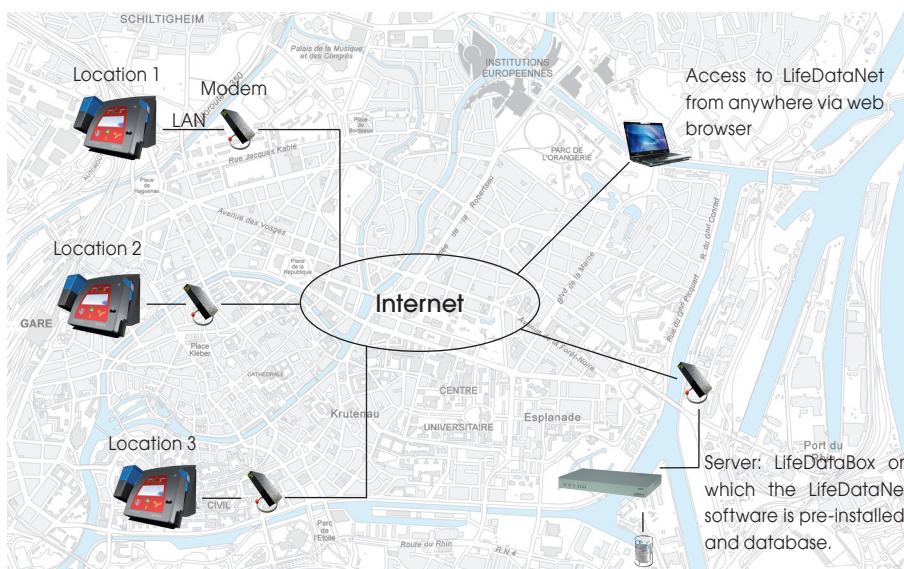

FRED easy Life Online fully automatic

FRED easy Life Online semi automatic
